Fully Crewed Charters – Captain and Chef are included in your charter fee –

One week = 7nights/8days.

In New England the charter rates are generally quoted as Plus All Expenses. Generally an APA (*Applied Provisioning Allowance*) of 20%-30% is collected prior to your charter – for food, beverages, fuel, dockage, mooring fees etc. Your expense receipts are reconciled at the end of your charter with your Captain.

Captain Only – Captain will take you places you will not be able to get to by land or ferry.

Typical tipping is based on the charter fee – 10% is customary and they are happy with a meal on shore.

Food is provided by charterer – they do not need to eat your lobster, however, to make sure they have breakfast; lunch and dinners are your responsibility.
