SUMMER 2018

## NEW ENGLAND

### HISTORY ABOUNDS, AMERICA'S YACHTING TRADITION BEGAN IN THESE COASTAL WATERS

America is a relatively young nation, but history abounds in New England where the country's first settlers planted roots. From the dark days of Salem's witch trials to the rebellious ride of Paul Revere, New England is rich with antiquity. Through those struggles and triumphs, great traditions were born, many of which are still seen and celebrated today.

Cruise the coastal waters of New England and you'll spy classic New England homes clad with gray shingles next to magnificent lighthouses. Pop ashore for an old-fashioned clam or lobster bake. America's yachting tradition began in these coastal waters. The beautiful islands of Nantucket and Martha's Vineyard are summer havens for New Englanders who wish to escape the city heat for the relaxed breezes of the northern Atlantic Ocean.

Wander the cobblestone streets while enjoying an afternoon ice cream and perusing the antique markets and you're sure to fall in love. From the modern metropolis of Boston to quaint fishing villages like Block Island, the best way to experience New England is by sea on board a luxury charter yacht.

## EIGHT-DAY ITINERARY

### DAY 1 - NEWPORT

Newport is renowned as New England's sailing hub. Embark the yacht and be dazzled by the beautiful views of this island's historic waterfront. Bannister's Wharf is the perfect place for your first taste of New England fare. Spend the evening exploring this delightful spot.

### DAY 2 - MARTHA'S VINEYARD

Before leaving Newport, go for a cliff walk and you'll be enamored by the beautiful mansions along the route. If there's time, stop at Castle Hill Inn and enjoy the view from the front lawn. After you return, set sail for Martha's Vineyard, a longtime haven for America's elite. The Black Dog Tavern in Vineyard Haven is a must visit — try the chowder.

### DAY 3 & 4 - NANTUCKET

One of the best ways to explore Martha's Vineyard is by bike. Spend your morning cycling about the island. Be sure to stop at the now-legendary Edgartown — the shooting location of the film "Jaws." Later, hop over to the gray-hued island of Nantucket, which offers a quintessential New England feel. Nantucket's cobbled streets and charming sea-weathered buildings are home to an assortment of quirky little shops and haunts. One must-buy item is a traditional lightship basket. The Whaling Museum is an interesting place to get a taste of local history and the Toy Boat boasts a stellar collection of classic wooden floatables. In the evening, tickle your taste buds with a selection of New England's finest fish and seafood at the White Elephant Hotel's Brant Point Grill, which also has stunning views of the harbor lights.

### DAY 5 - PROVINCETOWN

The yacht will make way for Provincetown early in the morning. Take a cup of coffee on the aft deck to enjoy the picturesque seaside views as you cruise. Upon arrival in Provincetown, disembark to explore this little artist's heaven, while the crew set up a traditional lobster bake on the beach for an evening of succulent seafood under the stars.

### DAY 6, 7 & 8 - BOSTON

One of the oldest cities in the United States, Boston is a proud and exciting metropolis with a small-town feel. The waterfront constantly bustles with visitors, enjoying all the attractions, such as Rowes Wharf, a great shopping spot for local goods and souvenirs, Quincy Market and the famous New England Aquarium. History buffs should head for the Freedom Trail to walk back in time to the beginnings of the Revolutionary War. Spend the last day of your charter in Boston. Be sure to visit the USS CONSTITUTION — the world's oldest commissioned naval vessel, named by first U.S. President George Washington. A leisurely lunch at a classic local haunt like the Union Oyster House, the oldest restaurant in the U.S., is a perfect way to end your journey. Sports fans may want to take in a game at Boston's famed Fenway Park, home of the Green Monster. The next morning enjoy a leisurely breakfast on board before disembarking.
